# Natural Touch™ A Gentle Squeeze makes all the difference...

The Natural Touch™ SoftFlex™ bottle features the revolutionary new SoftFlex™ silicone base. Made from 100% BPA Free silicone the Softflex™ silicone base allows parents to assist newborn babies in feeding with a gentle squeeze. This unique bottle also features superior anticolic vents in the teat and bottle base and the Natural Touch™ teat that mimics the flex, stretch and movement of a mothers breast.

### Soft Flex™

SoftFlex and natural shape encourages your baby to latch on. It gently stretches, flexes and moves like a mothers nipple.

### Anti-Colic System

Anti-colic valves in the teat and in the silicone bottle base, allow air to flow into the bottle, reducing the risk of colic.

### Formula Dispenser!

The formula dispenser fits securely inside the bottle making it the perfect solution for short trips.
